Agent Provocateur *FAIR TRIAL MY ARSE* window displays feature limited-edition Guantánamo bikini-briefs

Tuesday 19th February: Today *Agent Provocateur* are unveiling Fair Trial My Arse shop window displays to launch a new line of Guantánamo-orange underpants. Surrounded by prison wire, the *Fair Trial My Arse* pants will appear in *Agent Provocateur* stores across the UK and US.

Fair Trial My Arse is the brainchild of Reprive's Director Clive Stafford Smith and Joe Corré of *Agent Provocateur*, following bizarre and unfounded accusations by the US military authorities that the *Reprive* legal team smuggled contraband underpants into a prisoner in Guantánamo Bay.

Exclusively featured at Vivienne Westwood's London fashion week show, *Agent Provocateur* has designed orange pants with *Fair Trial My Arse* written across the back to call for the closure of Guantanamo Bay and other secret prisons where individuals are held, without access to meaningful legal representation – let alone a fair trial.

It is hoped that the limited-edition handcuff-accessorized *Agent Provocateur* bikini-briefs will highlight the inhumane and illegal treatment of prisoners held without trial in Guantanamo Bay and in countless other secret prisons round the world. Two British residents remain in Guantanamo in desperate need of UK intervention.

Reprive is a UK charity that uses the law to enforce the human rights of prisoners held in the "war on terror."

Speaking about the case of the contraband pants, **Clive Stafford Smith, Legal Director of *Reprive***, said:

"The US military authorities in Guantánamo Bay sent *Reprive* a threatening letter accusing us of smuggling underwear into a prisoner, the British resident Shaker Aamer, who had been "recently discovered to be wearing *Under Armour* briefs and a *Speedo* bathing suit" in his Camp Echo cell.

"Initially, we wondered whether it was April Fools Day. A little internet investigation revealed a special line called *Tactical Under Armour*, popular with the US military. It became obvious that a compassionate officer had given Shaker the offending unmentionables.

“Yet the military should perhaps show more concern for human rights for Shaker, who was held in isolation for almost two years, and less for his underwear. Out of this absurd controversy arises the latest line from *Agent Provocateur* – bikini briefs in gorgeous Guantánamo Orange, emblazoned with the slogan ‘Fair Trial My Arse’.

“The *Fair Trial My Arse* initiative calls on Gordon Brown to take decisive action to seek the return of the remaining British residents and the closure of Guantánamo Bay and other secret prisons worldwide, where people are being held out of reach of the law or being subjected to show trials and sham justice.”

Speaking ahead of the launch, **Joe Corré of Agent Provocateur** said:

“Holding people without trial or charge for years on end is a complete violation of basic human rights at the deepest level. The grotesque injustice of Guantánamo and other secret prisons under the guise of the so-called “war on terror” cannot be ignored. By launching *Fair Trial My Arse* pants in our stores I hope Agent Provocateur can play a part in bringing this important issue to wider public attention.”

BRITISH CASE FACTS

Binyam Mohamed Outsourced torture

Binyam was born in Ethiopia and lived in Britain for seven years, and was given leave to remain while his asylum case was resolved. Binyam was arrested in Pakistan on a visa violation and turned over to the US authorities. He was rendered to Morocco on a CIA plane. He was held there for 18 months. To ensure his confession, his Moroccan captors tortured him, stripping him naked and cutting him with a scalpel on his chest and penis. Next he was taken to the Dark Prison in Kabul, then to Bagram Air Force Base in Afghanistan, and finally on to Guantánamo Bay.

Shaker Aamer Held in isolation

Shaker Aamer is a long-term British resident who was abducted in Pakistan and sold to US forces for \$5,000. He had already applied for British nationality at the time of his abduction.

Shaker and his British wife Zennira have four British children, the youngest of whom Shaker has never seen. When he arrived in Guantánamo Bay, Shaker became a respected spokesman for the prisoners. During the prison-wide hunger strike in 2005, he became a leader on the prisoners' council and successfully negotiated a settlement with

the military before any of the prisoners died. Unfortunately, the authorities reneged on the agreement, and when the hunger strike began again, Shaker was locked up in solitary confinement. The isolation has taken a severe toll on his mental health and placed incredible strain on his family.
