

CORPORATE SOCIAL RESPONSIBILITY PLEDGE

ZERO TOLERANCE FOR TORTURE

I, the President of Richmor Aviation, affirm that the following principles shall henceforth be company policy:

Richmor Aviation condemns torture. Torture is an anathema under international and US law.

The work of Richmor Aviation, be it with private or public entities, must never knowingly facilitate torture. Nor must Richmor Aviation be seen knowingly to facilitate torture. This is true regardless of the nature of the work, including in the context of national security operations.

Richmor Aviation considers that we – and others who support governments in the field of national security – must make clear that our business will have no part in activity where there is a real risk that torture will result.

To demonstrate our commitment to stand against torture, this pledge shall be placed prominently on our website, as an integral part of Richmor Aviation’s Corporate Social Responsibility (CSR) platform.

Signed this ____ day of _____, 2012.
